

TO DISCUSS NEW ROUTING SCHEME

Municipal Commission Decides to Meet as Committee of the Whole With Tri-City Railway Officials.

LOOKS FAVORABLE FOR CHANGES

Majority of Members of Rock Island Council Express Themselves in Favor of Trying Plan.

Judging from discussion by the Rock Island municipal commissioners at their meeting yesterday the majority will approve giving the Tri-City Railway company a chance to try for a time changes proposed in the routing of cars for March 1.

At a motion of Mayor McConochie it was decided that the commission meet as a whole with officials of the traction company, Feb. 29, the day before the changes become effective.

Mayor McConochie's resolution followed a discussion on a resolution submitted by Commissioner Rudgren, which is appended:

"Resolved, that the Tri-City Railway company be and it is hereby instructed to operate cars on the Fourth Avenue line on a 12-minute schedule, as per section 11 in clause 4 of franchise.

"Be it further resolved that the company is hereby instructed to continue running cars on the Elm street line to the west terminus at First street, as per section 15 of their franchise.

"And be it further resolved that the company equip its line known as the 'Long View' with modern, double truck cars as per ordinance passed by this council.

"And be it further resolved that this council approve of the special service from Fifteenth street, Rock Island, to Fifteenth street, Moline, but is not in favor of discontinuing or impairing the service on any other lines."

To Investigate Sewers.

Investigation into the cause of the high water in the west end of the city, due to back water in the Fifth Avenue sewer, is to be made by a committee composed of Commissioners Murrin and Juhl and City Engineer Treichler, according to a resolution which was passed as submitted by Commissioner Rudgren.

The resolution authorizes the committee to report to the council on conditions as found and suggest a plan to guard against a recurrence.

Communication from a committee of property owners assessed for Forty-fourth street paving, assessment roll of which has been introduced in county court, asked that the width of the street be changed from 30 feet to 24 feet and that other property owners in addition to those in front of whose homes the paving will be laid, be assessed. The petition was received and placed on file.

The commission authorized borrowing \$2,000 from the Rock Island Savings bank for the waterworks department. Six per cent interest will be paid.

Little Cyril Still Missing.

Chicago, Feb. 22.—Yesterday's city-wide search by approximately 300,000 school children and the police and detective departments failed to reveal the whereabouts of Cyril Barnett Matthews, 9 years old, who disappeared from the home of his parents 12 days ago. Numerous clues have been traced but the boy was still missing today.

"DOC" COOK IS BACK: WANTS VINDICATION

Dr. Frederick A. Cook, photographed a few days ago in Washington.

Washington, Feb. 22.—Dr. Frederick A. Cook, the same "Doc" who said he had discovered the north pole but who, scientists said, was slightly mistaken, is back in Washington again, seeking vindication. He says he has started the machinery to bring about a congressional investigation and that he will not let up until his story of his travels in the arctic are proven true by congress.

As a preliminary to his present campaign he has gone around the world and added two more discoveries to his list. One is that the wild men of Borneo, whom P. T. Barnum first brought to the attention of civilization, are light complexioned, possess intellect and have been much maligned. His other discovery is a new hair tonic. It is cold air. The "Doc" says hot air will not start anything worth while.

The only disappointing thing about his latest trip was that he did not climb Mount Everest, in the Himalayas, the highest known mountain in the world, as he had planned to do. He was ready and the 29,002 foot mountain was there, but in Calcutta the American consul general told him no one would be permitted to go on an exploration.

But the "Doc" just had to discover something, so he picked out the wild men of Borneo and he had a lovely visit with them.

"They have been pictured," he said, "as a hairy lot of wild devils who don't know anything. As a matter of fact they are fine specimens. The men are head hunters but not cannibals, and they only take the heads of their enemies. Some so-called civilized people do that."

NATIONAL CHORUS TO GIVE NEW NUMBERS

The Swedish national chorus, at its concert next Thursday evening at the First Lutheran church, Moline, will include in its program a number of songs not heretofore rendered before local audiences. While working for a benevolent object, the chorus does not lose sight of the primary reason for its existence, that being the cultivation and public rendition of high class music ensemble. Its aim is to make each one of its annual charity concerts a musical event with a character of its own, not a mere duplication of previous performances. The program this year, therefore, will offer an array of chorals members taken up now for the first time by any local organization. The added special feature is the appearance of the Oriole ladies' chorus, a recent addition to the musical organizations at Augustana college, organized and directed by Professor Arvid Samuelson. Of the four local male choruses making up the united male chorus, the Wennerberg, the Svea male chorus and the Apollo Glee club will appear in individual numbers.

The program to be rendered Thursday evening is given in full: "Stridsbon".....Lindblad "Israel's Herd".....Bortnianski National chorus.

ALEDO

(Special to The Argus.) Aledo, Ill., Feb. 22.—Funeral services for Captain Lorenzo Berans Morey will be held at the residence on South College avenue Wednesday afternoon at 2:30, conducted by Rev. Arnold E. Moody. Captain Morey was born at Marietta, Fulton county, Illinois, 78 years ago, and in early manhood moved to Preemption township, Mercer county. He answered the call of his country in 1861, joining Com-

pany A of the 30th Illinois infantry. He served as first sergeant of his company until promoted to second lieutenant, and later was given the post of captain of that company. During the closing year or two of the war Mr. Morey was appointed assistant inspector general under Major General Har-ron. He was mustered out of the service June 12, 1865. Following the war Captain Morey returned to Preemption, where he worked in a general store. During this time he was married to Abbie G. Wright. After a few years spent in Preemption Captain Morey moved to Aledo, his wife dying shortly afterward. He was elected mayor of Aledo in 1887, in which office he served faithfully for two terms. He was a member of the board of supervisors for a number of years, and also a member of the Mercer county agricultural board. It was through Mr. Morey's energies on behalf of the board that the Mercer county fair was raised to the standards of excellence of which it now boasts. On March 31, 1903, Captain Morey was married to Mrs. Agnes Forner of Paola, Kan., who survives, together with one step-son, Charles Forner. Captain Morey took part in all civic affairs in Aledo, being one of the promoters of the excellent Aledo artesian well, and his late years serving on the health board of the city. He was a member of the A. M. Byers Farmers' bank for a number of years.

A noontide fire broke the quiet of the Sabbath in Aledo last Sunday. A defective flue was the cause of a small fire at the residence of John Frazier. The roof and rear wall of the house were damaged to a considerable extent, but the timely arrival of the fire

COMB SAGE TEA INTO GRAY HAIR

Darkens Beautifully and Restores Its Thickness and Lustre at Once.

Common garden sage brewed into a heavy tea, with sulphur and alcohol added, will turn gray, streaked and faded hair beautifully dark and luxuriant; remove every bit of dandruff, stop scalp itching and falling hair. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get the ready-to-use tonic, costing about 50 cents a large bottle, at drug stores, known as "Wyeth's Sage and Sulphur Compound," thus avoiding a lot of fuss.

While wispy, gray, faded hair is not awful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur, no one can tell, because it does so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared. After another application or two your hair becomes beautifully dark, glossy, soft and luxuriant and you appear years younger.

Look out for alkali soaps

Many soaps—white soaps in particular—depend upon alkali for cleansing. Alkali fades colors and ruins fabrics. There's nothing harmful in Peosta Soap. Peosta uses a wonderful combination of Peosta Solvent and Naptha as its cleansing agent. It makes clothes wear so much longer that you could well afford to buy Peosta even though alkali soaps cost nothing.
